

CirtexHosting Cuts Prices on Hosting Plans, Adds Three Year Billing Cycle

NEW YORK (June 14, 2010) –[CirtexHosting](#), a leader in Linux Web hosting, announced today it has added a new, unprecedented three year billing cycle option for all of its shared hosting plans. Following in the footsteps of sister company HostV, the prepaid 36-month billing cycle enables customers to lock-in long-term billing savings.

With the new 36-month billing cycle, the company’s popular Basic Shared hosting plan starts at just \$2.49 per month, and includes 5000MB of disk space, unlimited premium monthly bandwidth, and a trimming of other standard features, including Colortex cPanel and instant data backups. All other [Unlimited bandwidth Shared Web hosting](#) plans feature similar savings.

“Several weeks ago, we introduced the three year billing cycle at HostV, a sister company CirtexHosting. The feedback has been overwhelmingly positive, as customers flock to the security of a long-term, fixed pricing arrangement. We are introducing the three year billing cycle at CirtexHosting to capture similar customer sentiment and further engage budget-conscious consumers,” said John Xie, president of Cirtex Corp., HostV parent company.

[Reseller hosting](#) starts at \$24.99 per month for 25GB of disk space, and Semi-dedicated hosting starts at \$34.99 per month for 20GB of disk space.

Cirtex Corp.’s recently released iPhone application, which is available free of charge from the Apple iTunes Store, allows users to perform a wide-range of tests and checks, including domain WHOIS lookups, DNS lookups, Reverse DNS lookups, Ping and Latency checks, Tracerout searches, and more. Users can also perform specific searches on domain name related data, including Alexa rankings and DMOZ listings.
